

Please, please do NOT allow cell phone usage aboard airplanes while in flight. Have you any idea how unbearable it would be to listen to dozens or hundreds of simultaneous phone calls with people screaming into their cellphones in order to be heard over everyone else. This would be a terrible decision and I feel sure that it would lead to hundreds of episodes of air rage each year. No one is so important that they cannot be out of touch for a couple of hours. Please do NOT do this.
